Notes: 1) The course schedule is subject to change based on student enrollment and faculty availability. Students may need to register for 12 units, including the Clinical Internship, to complete their coursework in two or two and a half years. 2) Spiritual & Professional Colloquium 1 and 2 are offered every semester. The dates for the monthly Colloquium meetings will be set in collaboration with students at the start of each semester. 3) After completing the coursework, students enroll in the Dissertation Colloquium (two units each) for two semesters. If students do not complete their dissertations after taking four units of Dissertation Colloquium, they must register for TPC4090 DPC Dissertation Research until they finish their dissertations. 4) If the Clinical Internship is the only remaining course in their coursework, students may enroll in the Dissertation Colloquium and work on their dissertation research. 5) New Student Orientation (NSO) takes place in August for the fall semester and in January for the spring semester.
